

SDS Max Demolition Hammer

H41MB2

metabo **HPT**
DURABILITY FIRST

- **Low Vibration Handle (LVH)** provides rubber handle dampers to absorb vibrations during operation
- **Higher power to weight ratio** which generates 29% more performance while weighting 0.8 lbs. less than the previous model
- **Aluminum connecting rod** to add overall durability and longevity to this hammer
- **Large trigger with lock-on** to provide continuous operation to prevent hand strain
- **Variable lock mechanism** provides 12 different fixed position for chisel work
