

9.2 Gal Commercial HEPA Vacuum

RP350YDH

metabo **HPT**
DURABILITY FIRST

- **Tool actuated outlet** to turn vacuum power on/off with the connected power tool
- **Automatic filter cleaning** provides pulse cleaning of the HEPA filters while in use to prevent suction loss and maintain production
- **High liquid sensor** senses when the liquid level in the tank reaches maximum fill and shuts vacuum off to prevent spills and motor damage
- **Accepts dust collection attachments (sold separately)**
- **Meets or exceeds OSHA 1926.1153 Crystalline Silica Dust Regulation**

Volts	120V
Tank Material Capacity	
Wet	4.9 gal
Dry	5.6 gal
Suction	130 CFM
Weight	34.6 lbs

Accessories Included

(2) HEPA Filters
Poly Bag with closures
Sealing Plug for tank
Step Down Reducer
