

# 12" Sliding Dual Compound Miter Saw with Laser Marker

C12RSH2

# HITACHI

- **Compact slide system** allows the saw head to slide along fixed rails, for zero clearance
- **Laser Marker System** for exact alignment and predictable blade placement
- **Large sliding fence** raises fence height to 5-1/8 inches to cut up to 7-1/2 inch crown molding vertically
- **Positive stops and indications on the miter and bevel scale**, for easy to read measurements and quick settings

**LASER MARKER**
